Establishment of STEM LAB

Under the guidance and support of UCOST (Uttarakhand State Council for Science and Technology), the school has established a Paryavaran Vigyan Chetna Kendra and a modern STEM Lab to strengthen experiential and activity-based learning. These centers aim to cultivate scientific temperament, environmental sensitivity, and innovative thinking among students.

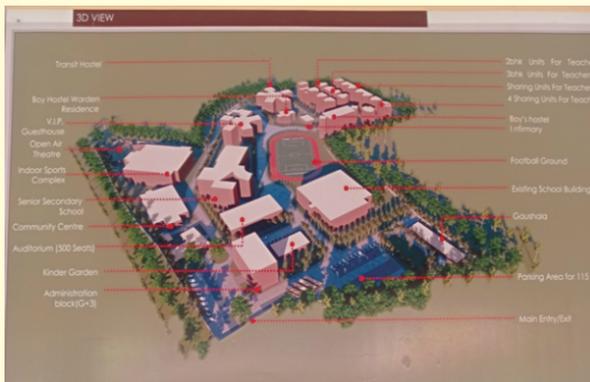

Through practical experiments, project-based learning, exhibitions, workshops, and hands-on activities, students gain a deeper understanding of environmental conservation, sustainability, and emerging scientific concepts. The STEM Lab further enhances skills in science, technology, engineering, and mathematics, encouraging creativity, problem-solving, teamwork, and critical thinking. Together, these initiatives provide a dynamic learning environment that connects classroom knowledge with real-life applications, empowering students to become environmentally responsible and scientifically competent citizens of the future.

NEW INFRASTRUCTURE DEVELOPMENT

The school is proud to announce the construction of a new, well-planned hostel building designed to provide safe, comfortable, and modern residential facilities for students. The hostel will include spacious rooms, proper ventilation, hygienic amenities, and a secure environment that supports students' academic and personal growth.
